

September 08, 2025:

To anyone that can ever read these messages, I am writing to express to you that I am being held within an imprisonment of spies that will not stop watching me as I live and work.

I am writing to inform anyone that can read this that the Freemason network is watching us and is holding us within a network of people that we are unable to escape.

I am writing to inform you that people, like Donald Trump, are using the information that they are obtaining from their spying operation to extract our 'good' essence to use for their own benefits as a lure to draw people to themselves instead of to me and people like me.

I am writing to express that I am being held within this false imprisonment and I am also being agitated to produce this work as my only means of keeping calm, cool, and collected while I am facing an endless series of obstacles that are being placed in my path to prevent me from actually achieving my own success.

I am writing to inform anyone that ever reads this message: I exist. I am doing this research and the Donald Trump campaign is stealing my work to place it upon themselves, and their team of imposters, so that they can obtain the 'aura' of a good person while they actually use evil upon the world to obtain their own personal desires.

I am writing to inform anyone that can ever read this message that I am producing this work for the good of People everywhere, except my efforts are being stolen, my life is being hindered, and other people (that do not have the good of People everywhere in their own hearts) are placing this information over themselves and their own efforts as a cloak to disguise their own true intentions - which are the benefit of themselves and their own team of co-conspirators.

This is not a phenomenon that is new or novel and I did not simply 'observe' this situation by my own 'intuition.' In fact, I have studied this information in great depth to learn of this evil method of oppression and slavery.

I will write more about this, which I am calling the 'Conspiracy of the Stolen Aura Cloak' in greater depth soon. Until then, please do not be fooled by anyone that is attempting to convince you that they are doing good in the world by 'watching over' me and 'placing my qualities onto someone that is more visible.'

I am writing to assure you that I am being made to be invisible. I am being held within a false imprisonment of evil people that I cannot escape. And, these evil people are agitating me to produce this work which they are stealing and using for their own benefit while pushing heavy weights and burdens into my life.

I do not consent to the theft of my aura cloak and I am not willingly participating in the evil scheme to place this aura on people who are undeserving and full of faults.

Those people are being used as the lures to pull the People apart by a deception of false bodies and false intentions. Those false people, with those false intentions, are the lures that are being used to set the hook for the evil one to feed off the body of our community.

For as long as society is lured to the false people and false intentions of a false aura cloak, they will be lured away from the truth of our perceivable God.
